WORKSHOPS FOR PARENTS, PARENT EDUCATORS AND TEACHERS

Susan has successfully completed 21 hours of Parent Learning Network Parent Educator Training sponsored by the Texas Association of School Boards. She is trained to deliver workshops based on the *Family Frameworks* and *The Early Years* curricula. The curricula was written by the Texas Association of School Boards staff members in cooperation with content researchers across Texas.

The curricula units emphasize active learning techniques that empower participants to become their own problem solvers. The lesson plans offer activities that appeal to the multiple intelligences and promote learning the way the brain is best and biologically designed to learn. Participants will have an opportunity to share ideas, support each other, study current research, and work together as a team to find answers to their questions.
