Gender Stereotypes and Conflict

This workshop is designed to give a basic understanding of how gender stereotypes contribute to and reinforce relationship violence, bullying and conflict.

Participants will evaluate attitudes, expectations and beliefs they grew up with regarding gender roles and learn how they create patterns of thinking that result in misunderstanding, anger and/or violence. Media and it's impact is also addressed.

*This has been a popular topic for youth groups. Susan often presents this interactive session to middle school and high school aged students.

Program costs:

Costs are determined on an individual basis.
