

## Reaching the Reluctant Learner

In this workshop you will learn 50 strategies to keep the reluctant learner engaged, to help all learners with organization and memorization, and to make learning fun and meaningful. All strategies are based on solid educational theory and current research.

Learn how to:

- Set up a classroom environment that calms students and gets their brains primed and ready to learn.
- Present information on the whiteboard, chalkboard or overhead so that it enhances memory and maintains focus.
- Create handouts, assignments, project descriptions and assignments so that they are easily read, less overwhelming and foster motivation and retention.
- Help students improve memorization of detail so that they perform better on tests.

And many more strategies!
